

Easter Data Handling

The table below shows the number of Easter eggs sold in a supermarket in a week.

represents 20 eggs

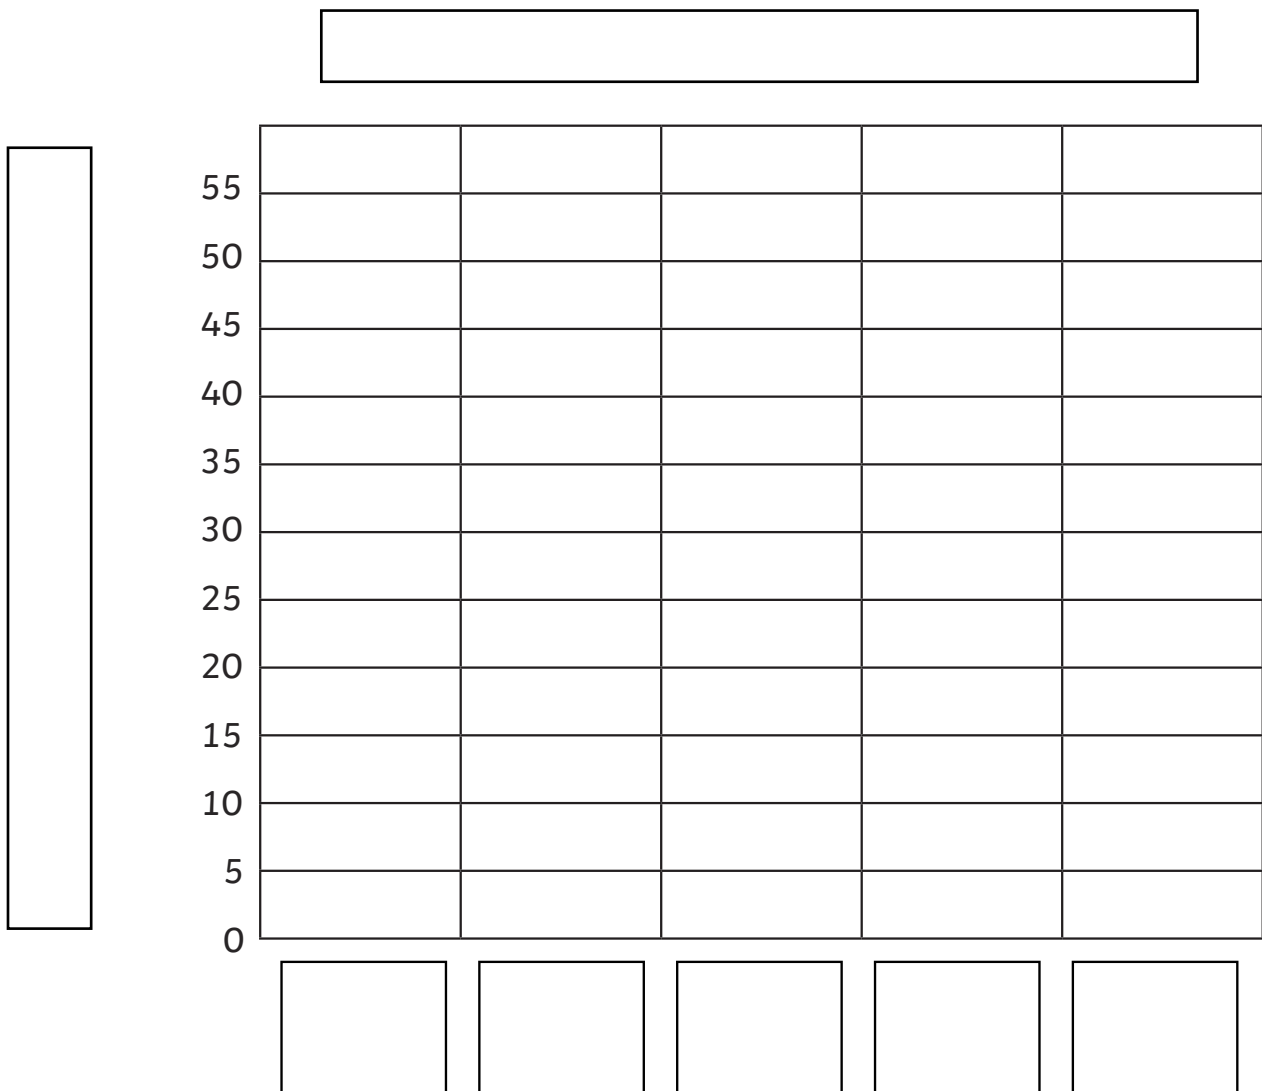

Monday	
Tuesday	
Wednesday	
Thursday	
Friday	
Saturday	
Sunday	

1. How many eggs were sold on Tuesday?
2. How many eggs were sold on Saturday?
3. How many more eggs were sold on Friday than Wednesday?
4. How many eggs were sold altogether?
5. If 30 people bought eggs on Saturday, how many eggs on average did they buy each?

Milk Chocolate Eggs	Dark Chocolate Eggs	White Chocolate Eggs	Toy Eggs	Easter Bunny Sweets
50	20	35	15	45

A survey was carried out in a local school to see what Easter products children liked best.

- Use the information in the table to complete the bar chart below. Remember to add labels to your graph.

- What is the total of the number of children who like chocolate eggs?
- How many more children like Easter bunny sweets than white chocolate eggs?
