

P6 Week beginning 27th April

Maths Task Rectangles

*A rectangle is a four sided shape.

*All its angles measure 90 degrees.

*Its opposite sides are equal.

*A rectangle has four angles, each measuring 90 degrees, what is the total measurement of the 4 angles?

*Count how many rectangular shapes you can find in your house. There will be many!-----

*Draw as many as you can in the space below and label them.
