

Trapped in a cave

Dear diary, it's June 14th 9:00am and today is my school trip! I'm super excited for all the fun activities. This morning I made sure to spend a lot of time with my parents and little brother Zack. I have no clue how our dorms are going to look but I hope they're huge! It's 11:00am and I'm heading out, we got told to meet up outside the school, there's three huge vans in the parking lot with my friends and tons of parents waiting to say goodbye. It's 12:00am and we just went into the school to watch an information video (it was boring) but our bags have to go into the trunk which means I can't have my diary with me so I'll update you guys tomorrow!

Dear diary, it's the next day / June 15th, and the ride to my school trip was EXTREMELY boring...and the dorms aren't as big as I imagined. There are three dorm rooms, one for the boys, one for the girls and one spare. Each one of them is pretty small and cramped. In my dorm / girls dorm there are only 4 bunk beds. Which means only 8 people are able to sleep there. Luckily there's exactly 8 girls! Anyway, we got a quick tour of the area...pretty nice tbh, it's not the largest but we are going to be outside most of the time.

Dear diary, it's June 16th, 6:00am. I didn't get any sleep last night :(my friend kept moving and slept talking. I'm about to have breakfast and get dressed! It's 10:00am, I had cereal for breakfast and I got dressed in a cute polka dot jumpsuit. Today we have biking at 12:00am, a treasure hunt at 3:00pm and baseball at 5:15 pm. I'm about to get my bike picked out. I'll update you guys tonight shh!

Dear diary, It's june 17th and yesterday i accidentally fell asleep before updating you guys .. oops.. But it's now 4:00pm and I had no time to write this morning.we are having an extremely busy day today!we already had volleyball lessons this morning at 10:00am,we are having cave exploring in an hour.and then surfing and seashell art! Sooo basically a whole day at the beach!FUN.we also packed a picnic and some stuff to make a fire!I'm taking my diary with me! So i'll write everything!we have arrived at the beach.it's HUGE! I brought some coloured pencils so I'll do a little drawing of the beach!

The drawing isn't my best, anyway we are about to head into this beautiful cave!! It's not too big but I guess it's okay. There's tons of "mystical" spiders:) and there a bunch of tiny crystals on the ground.me and andy/my friend have been told to set out the blanket for our picnic:)

While eating I quickly drew the cave with a twist !(it's not that pretty and there's not that much water.. There's a little bit!

It's been 20minutes and we have packed up all our equipment and we are going SURFING!:(:(NOOOOOO the exit has collapsed!!!!!! We are trapped!!! And did i mention there's no signal AND we can't have our phones!:(all i can think of is being HOME WITH MY FAMILY !!!! Why US?? Why ME?? We only have a couple of sandwiches left!WE'RE GOING TO STARVE!!!NOOOOOOOOOOOOOOOOOOO

Dear diary, i think it's june 18th? But it feels like we've been here FOREVER!! I got zero sleep tonight!! The worst thing is, we can't even tell when it's night or day! i've seen 3 bats at the darkest end of the cave! I THINK IM GOING CRAZY!! I've started talking to this random spider like it's a DOG: (our coach and teacher have set out these fire torches along the sand in the cave! and we have to boil our water so that it can be drinkable! eww!!!!

My coloured pencils snapped and I have no sharpener :(So i had to draw the cave in black and that reminded me of creepiness so..now it's creepy!

AAAAAAAAAA! dear diary, today I woke up with a bat hanging above my head! The cave is getting creepier and creepier and the water that i was talking about is RISING !! WE'RE ALL GONNA DIE!!!

Dear diary, it's july the 1st and we have no food.we can't even drink because we broke the fire maker thing so we can't boil the water!My diary is extremely wet after I accidentally dropped it in the water 100 times :(

I don't think we'll make it....

Dear diary, it's been a month or so, and the water just started to rise!like really fast!Now I really don't think we'll survive!My teacher is extremely weak and starving!There's vomit everywhere because of my classmates trying to eat spiders.I tried eating some tiny fish and seaweed even though I HATE fish!ew! The wall that collapsed has tiny cracks in it and so the water is passing through even faster! My coach tried to move the wall but it wouldn't budge!:(

THE WATER IS ABOUT TO DROWN US!goodbye diary!:(
